## Tile triumph

Designers love these custom hand-painted tiles because they are historically correct with the look of old world craftsmanship. Brenda Jean Lusher, artisan and president of Mizner Industries, would make Addison Mizner beam with pride. This Mediterranean-inspired design, based on tiles Mizner brought to Florida in the early 1900s, was used in a home owned by E.F. Hutton in Palm Beach. A wide variety of tiles are available from around the world,

including a new collection inspired by Turkey. Prices range from \$26 to \$48 a tile. Available at Mizner Industries.
